

# The Scottie Scoop

Week of September 6

## SPOTLIGHT ON SCOTTIE LEARNING

### Reading

We will continue adding our thoughts about our book to our Readers Notebook. Your child will also be meeting with me in small groups - ask them to retell their Mrs. Yancey book!

### Writing

We will continue to draft stories about ourselves. We want to build our story like a mountain with the exciting part in the middle. In grammar we will talk about complete sentences - subject and predicate. (EX: Lucy goes to the store. S: Lucy P: goes to the store)

### Math

We are continuing our study of the number system and place value. Look for an email for examples of the 4 ways we can write numbers. Students will begin differentiating between odd and even numbers.

### Science

This week we will be talking more about matter. We will work to cause physical changes through energy. Try melting or freezing this week at home!

### Social Studies

We will continue to talk about being a good citizen!

## *The Teachers' Scoop*

The Yancey/ Noble crew is getting in the routine of school and we couldn't be more proud!

Thank you for checking your child's planner every day and keeping up with their learning here at school!

Coming up soon will be information sent home about a special day - BUBBLE DAY! In order for this day to be a success, we need some help from our wonderful families. If you think about it while shopping, pick up a bottle of dawn soap or glycerin and send it in with your child. Your donations will be greatly appreciated.

Thank you to all of the families who donated classroom supplies from our wishlists! We are so lucky for all the support!

Remember, no school Monday! Ask your child about Labor Day and why we celebrate it! Enjoy the three day weekend!
